

EQUINE VETERINARY & DENTAL SERVICES P/L

BREEDING CONTRACT 2018

BROMAC ALADAR C2-152985

51 Duncans Lane, Clarenza, via South Grafton, NSW 2460

Ph: 02 66 424 700 Fax : 02 66 428 564

Email: vets@evds.net.au

I _____ agree to the conditions set out hereunder:

- 1a. A current contract is required at the beginning of each season for each mare.
- 1b.. The **“special price” service fee** of \$660 inc LFG and GST is only for the first 20 mares booked and paid for as either live cover or chilled semen. The standard service fee is \$1100 inc LFG and GST for live cover and \$880 inc GST and LFG for chilled semen..
Please note: Mares will not be served unless the full service fee has been paid.
- 1d. All accounts for agistment and other vet work/charges not specifically included in the service fee is to be paid in full on collection of the mare.
- 1e. When purchasing **chilled semen** for \$880 inc GST (or \$660 inc GST and LFG for the first 20 mares) – apart from the first collection and packaging , which IS included in the service fee, there is a non-refundable collection fee of \$275 inc GST for each subsequent shipment PLUS FREGHT COSTS. Full payment of this fee must be made before the semen is sent. On weekends and public holidays surcharges may apply. The collection fee for subsequent collections is in addition to the one time service fee of \$880 (or \$660 for the special price for first 20 mares) which includes the first collection and packaging, must also be paid in full before any shipments will be made.
- 1f. When purchasing **frozen semen** for \$660 – there will be a non-refundable surcharge for transportation costs in the dry shipper canister (approx \$330 but is variable depending on where it is sent in Australia) and full payment of this fee must be made before the semen is sent. This surcharge is in addition to the service fee of \$660 – for three “mare doses”, which will suffice for 3 cycles. A refundable deposit of \$350 on the dry shipper tank will also be charged and required to be paid prior to shipping the frozen shipper tank.
- 2 No contract is said to have been made until the complete Breeding Contract and non-refundable deposit is received by EVDS Pty Ltd. Payment information is found at the end of this contract.
- 3a. No refunds will be given but the service fee may be transferred to another mare if mutually agreed between mare owner and EVDS. Pregnancy ultrasound scan costs are not included in the service fee or the handling fee.

- 3b. In the event of the mare not falling pregnant the owner may negotiate a 'free return' with EVDS. A veterinary certificate must be provided by the owner to prove that the mare is not in foal. The "Free Return" does not include agistment or handling fee charged per cycle (\$275 to cover handling mare, pre and 24 hr post service ultrasound scans, ovulation drugs, oxytocin if necessary, uterine lavage if necessary).
4. Although we usually use live cover with the mares, there are sometimes exceptions. Due to (a) the number of visiting mares, (b) nervous mares, (c) chronic infections, (d) foal proud mares, (e) safety considerations for ,mare, stallion and staff or (g) any other circumstance deemed appropriate – EVDS Pty Ltd reserves the right to use Artificial Insemination techniques without prior owner consultation. This is a very gentle way to get a mare in foal and many difficult breeders will happily conceive using this method. It is equally, if not more successful than live cover serving, and will not incur any further costs than live cover.
5. In order to minimise stallion use, maximise stallion fertility and maximise mare conception, EVDS Pty Ltd reserves the right to direct and implement policy on follicle testing, pregnancy testing and subsequent drug therapy, such as antibiotics, prostaglandin, oxytocin, ovulation drugs and uterine flushes in the few days leading up to and the 24 hours after ovulation. This is usually included in the handling fee (not charged on the first cycle of the season at EVDS) At all times minimising the cost to the mare owner and maximising the successful conception without compromising the mare's wellbeing, which will be the highest priority.
- 6a. Mares must not have hind shoes on if they are to be served. If the mare is shod behind, we reserve the right to remove the shoes with the costs borne by the owner. If necessary on therapeutic grounds, the shoes will be covered with padding and bandage when being served, at additional costs.
- 6b. EVDS Pty Ltd may refuse to inseminate the mare if:
 - (i) The mare poses an unacceptable danger to herself, her handlers or the EVDS clinic and or property,
 - (ii) The mare is unsuitable for breeding, as determined by the EVDS Veterinarian in his/hers absolute discretion; or
 - (iii) The breeder fails to comply with clause 7.
7. The mare owner or agent must ensure that on arrival at EVDS (52 Duncans Lane, Clarenza NSW), the mare will be:
 - (a) halter broken and able to be led;
 - (b) known to have a vaccination history by the owner, regardless of whether vaccinated or not. Should your mare contract a disease that is able to be vaccinated against, such as Tetanus, Strangles, Hendra, Herpes, Salmonella whilst at EVDS, there can be no claims made against EVDS whatsoever to compensate for loss or treatment, cost to isolate her etc. It is the mare owner's responsibility to protect the mare against these diseases through vaccination at least 3 weeks prior to arrival at EVDS.
 - (c) Unshod on back feet

- (d) free of illness and disease; and
- (e) free of injury, except as disclosed in this contract.

8. Rates are as follows:

	RATE AU\$	GST AU\$	TOTAL AU\$
Agistment per day – mares will be hand fed, yarded separately to minimise risk of injuries from other mares etc. NB we encourage for mare to only be at EVDS for the period when she is on heat. If owner not sure when on heat, we can scan her to gain that info.	23.86 \$30 for mares with foal at foot.	2.38 \$3 for wet mares	26.25 \$33 for wet mares (foal at foot).
Live cover service fee SPECIAL 2018 Rate – for the 1 st 20 mares booked AND paid for. - Live cover fee includes follicle testing by vet, ovulation drugs, oxytocin injections, uterus flush & antibiotics within 48 hrs of ovulation, if necessary at EVDS.	• 600 (usually \$1000)	• 60	660 * (usually \$1100)
Handling Fee (per cycle) if the mare doesn't conceive. NB Her first cycle at EVDS where she is covered has the handling fee included in service fee	250	25	275
Chilled semen service fee – where semen is sent to another vet for insemination of mare – includes first collection.	Special price for 1 st 20 mares = \$600 (usually \$800)	60	660 (usually \$880)
Chilled semen collection (exc freight) NB there no charge for first collection, but will be payable on subsequent requests for that mare in the same season.	250 (usually \$300)	25 (\$30)	275 (usually \$330)
Frozen semen service fee (will include 3 “mare doses” = enough to use on 3 ovulations/cycles)	600	60	660
Frozen semen freight charge – Variable	Approx. 300	30	330
Frozen Semen Dry Shipper Tank Deposit – refundable upon return, less the daily hire fee of \$10 per day which	318.82	31.82	350

commences to be charged 7 days after tank leaves EVDS.			
--	--	--	--

9. EVDS Pty Ltd staff will take all reasonable care, but shall not be liable to the owner or the agent in the event of the death of the mare (s) or in the event of the same receiving any injury or suffering any illness howsoever arising.
10. There is a “ live foal guarantee” for live cover, chilled and frozen semen services. A veterinary certificate must be supplied to EVDS stating the reason why there was no live foal and EVDS must be notified immediately. In most cases a ‘Free Return’ will be negotiated.
11. In the event of the stallion being unavailable – due to death, injury, competition commitments or sold – EVDS will offer an alternative stallion where possible. Mares not covered as a result of the stallion being unavailable will not be compensated for daily charges and or any other costs but a ‘free return’ may be negotiated’.
12. Agents please be aware – if signing on behalf of an owner who subsequently defaults on payment the agent then becomes liable for all outstanding costs.

We thank you for choosing to send your mare to Bromac Aladar at EVDS!
