INTRODUCTION TO Equine Dentistry

February 21-26, 2022

SIX DAY INTENSIVE WORKSHOP
in EQUINE DENTISTRY and SURGERY
at EVDS, Grafton NSW

**Come to the best equine veterinary
dental training workshop on offer!!**

**These workshops have filled up early for the past
6 years, so book early and don't miss out!!!**

Horse owners demand high quality dentistry at affordable prices for their horses, and we can teach you how to deliver it! We know the art, science and marketing of equine dentistry intimately!

- Having hosted over 800 equine vets over the past 20 years at our training workshops, the EVDS teaching team (9-10 tutors for 28 registrants) is absolutely dedicated to ensure that every vet who attends our 6 day workshop returns to their practice confident and competent to go out and perform quality routine dentistry – bread and butter work which will return good results and happy clients.
- Our proven combination of lectures, dry labs, and practical sessions on cadavers as well as live horses, allows your knowledge and confidence to grow over the six days, and this reinforced knowledge and new skills WILL stay with you.
- The last two days are spent working entirely on live horses where you are GUARANTEED to use different sedation protocols, systematically examine 10-14 live horse mouths, perform nerve blocks, extract wolf teeth, do performance floats using hand tools and power floats, perform “bit seats”, complete dental charts, and communicate and explain pathology to the owners - who will appreciate your efforts and attendance at the workshop.

We hope you can join us and can guarantee you will have a great time!
